## Forward Looking Statements

**This presentation may contain certain statements that express the management's expectations, beliefs and assumptions about future events or results. Such statements are not historical fact, being based on currently available competitive, financial and economic data, and on current projections about the industries BM&F Bovespa works in.**

**The verbs "anticipate," "believe," "estimate," "expect," "forecast," "plan," "predict," "project," "target" and other similar verbs are intended to identify these forward-looking statements, which involve risks and uncertainties that could cause actual results to differ materially from those projected in this presentation and do not guarantee any future BM&F Bovespa performance.**

**The factors that might affect performance include, but are not limited to: (i) market acceptance of BM&F services; (ii) volatility related to (a) the Brazilian economy and securities markets and (b) the highly-competitive industries BM&F Bovespa operates in; (iii) changes in (a) domestic and foreign legislation and taxation and (b) government policies related to the financial and securities markets; (iv) increasing competition from new entrants to the Brazilian markets; (v) ability to keep up with rapid changes in technological environment, including the implementation of enhanced functionality demanded by BM&F customers; (vi) ability to maintain an ongoing process for introducing competitive new products and services, while maintaining the competitiveness of existing ones; (vii) ability to attract new customers in domestic and foreign jurisdictions; (viii) ability to expand the offer of BM&F Bovespa products in foreign jurisdictions.**

**All forward-looking statements in this presentation are based on information and data available as of the date they were made, and BM&F Bovespa undertakes no obligation to update them in light of new information or future development.**

**This presentation does not constitute an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any sale of securities where such offer or sale would be unlawful prior to registration or qualification under the securities law. No offering shall be made except by means of a prospectus meeting the requirements of the Brazilian Securities Commission CVM Instruction 400 of 2003, as amended.**

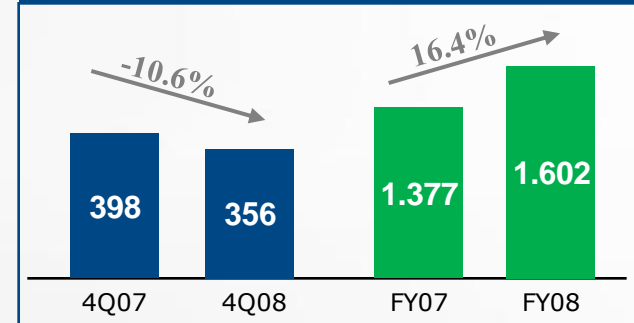

## 4Q08 & FY08 EARNINGS

- **EPS:** BRL 0.10 compared with BRL 0.11 in the 4Q07
- **Net margin:** 56.9% vs. 55.8% in the previous year
- **EBITDA margin:** 66.3% in the 4Q08 vs. 68.0% in 4Q07; 68.0% in the FY08 vs. 62.9% in the FY07
- **Expenses reduction:** decrease in the 4Q08 reflects delivery of mergers synergies - BRL 53.3 million annualized reduction in 4Q08 operational expenses compared to 2007 base (adjusted for inflation)

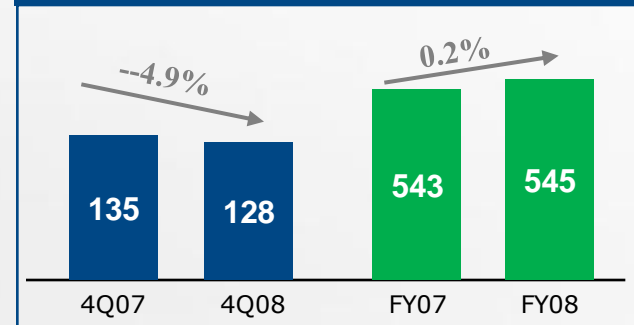

## HIGHLIGHTS

- **DMA development in BM&F Segment:** in Mar'09 trades through DMA represented almost 7% of the total traded
- **Decrease in volumes in 2H08:** negative impact on the results, but partially offset by a higher turnover velocity (Bovespa Segment) and by a temporarily higher RPC due to the ending of the discount policy (BM&F Segment)
- **Individual Investors:** increase of their share in 2008
- **Cost savings:** additional reduction in operational expenses, which would reach BRL 450 million
- **Dividends:** BRL 139.4 million distribution of interest on shareholders' equity and BRL 60.6 million in dividends

- Despite the decline in revenues tied to trading activity, the revenues from other services increased by 88.1% over the prior year to BRL 82.6 million, mainly from:
  - **Depository:** higher number of investors (mainly individuals)
  - **Listing:** Novo Mercado listing fee discount policy terminated
  - **Vendors:** more terminals and vendors with our market data
  - **Trading Access Services:** implementation of a policy for brokerage house access
- The share of non-trading sources increased to 21% of total revenues in 4Q08 versus 10% in 4Q07
- Other Operational Revenues includes dividends from investments in other companies

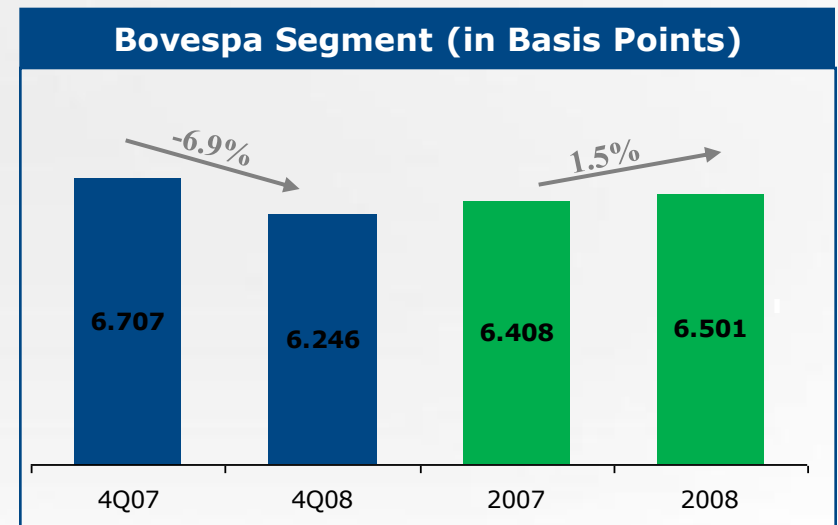

## BM&F SEGMENT

The increase in the BM&F Rate per Contract (RPC) reflects the positive impact of the changes in the pricing policy as well as the BRL depreciation

## BOVESPA SEGMENT

The margin reduction in 4Q08 is due to a higher participation of day trades in the total traded value

### DIRECT MARKET ACCESS

- Full electronic connection with the Exchange allows higher diligence on the order intermediation process and provides facilities to market participants
- Allows the trading of high frequency (algorithmic) traders
- Growing percentage of DMA originated trades within the total daily average

### ORDER ROUTING AGREEMENT WITH CME/GLOBEX

- Weak volumes in 2H08 but signs of potential upside in 1Q09

**DMA / CME Milestones**

Year	Milestone
<b>2008</b>	• Aug 29 <sup>th</sup> – Traditional DMA
	• Sep 30 <sup>th</sup> – Globex to GTS routing
	• Dec 3 <sup>rd</sup> – DMA via Provider
<b>2009</b>	• Feb 9 <sup>th</sup> – GTS to Globex routing
	• In 2Q09 – DMA via direct connection and Co-Location

\* Until march 11<sup>th</sup>

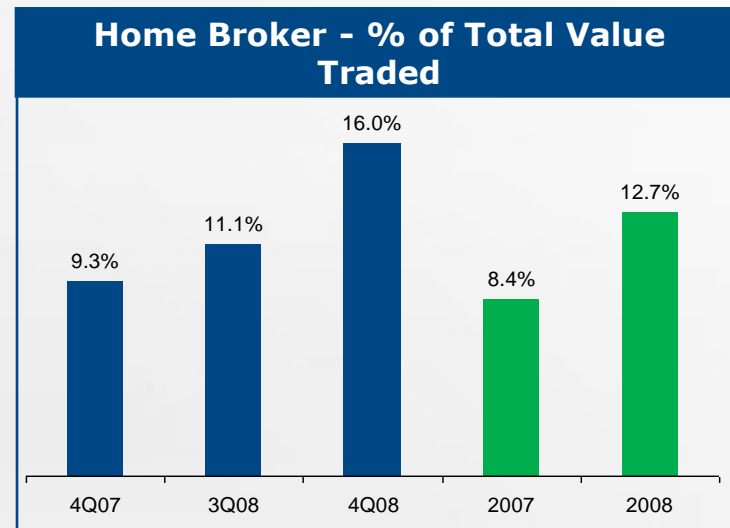

### MAIN DEVELOPMENTS IN 2009

- Creation of one Front-End solution for trading systems (equities and derivatives)
- New version of MegaBolsa, which will increase the capacity to 1.5 million trades per day; and reduce the latency

Matching Engine	TRADES PER DAY		INTERNAL ROUND TRIP TIME	
	2008	2009	2008	2009
<b>Cash Markets</b> MegaBolsa	770,000	1,500,000	290m/s	8m/s
<b>Derivatives</b> GTS	200,000	200,000	25m/s	8m/s

- Clearinghouses merger (derivatives, stocks and corporate bonds, FX spot and government bonds)
- New Sinacor (ERPs for Brokerage houses)
- Construction of the Contingency Site

- Individuals increased their composition within BOVESPA's ADTV to 31.1% in the 4Q08 compared with 22.8% in the 4Q07. For the FY08 the participation of individuals increased to 26.8% vs. 23.2% in the FY07
- An important way for individuals to trade is through Home Broker (DMA via internet for individuals), which accounted for 16.0% of the traded value in the 4Q08 vs. 9.3% in the 4Q07

- New products for individual investors
  - Direct Treasury via Home Broker: making the access to government bonds more friendly
  - New ETFs available for trading

## BM&F SEGMENT

### 2008

- U.S. dollar options contract with reset
- Real/Euro futures contract with market maker

### 2009

- Real/Yen futures contract: developed in partnership with CME, similar to Real/Euro offering
- New OTC registration platform
  - Launching of new registration platform for OTC, providing bilateral netting and mark-to-market calculation, allowing greater transparency for risk management purposes

## BOVESPA SEGMENT

### 2008

- New Indices: Small Cap, MidLarge Cap, Consumption and Real State
- Exchange-Traded Funds (ETF): iShares Ibovespa, iShares BM&FBOVESPA MidLarge Cap and iShares BM&FBOVESPA Small Cap

### 2009

- Listing Segments: revision of Novo Mercado rules and stimulus for Bovespa Mais
- Direct Treasury: connection via Home Broker
- Options on single stocks with market makers

- **BM&F Trading:** implementation of a new price grid for BM&F segment based on volumes aiming at neutrality when compared with Aug'08 framework

<b>Total</b>	<b>1.323</b>	<b>1.383</b>	<b>1.494</b>

- **BOVESPA Trading:** reduction of clearing fees charged to retail investors and private and public companies in the cash market (beginning in April, 2009)
- **Other activities**
  - **Depository Service:** adoption of a percentage charge system based on value under custody with the depository (beginning in Apr'09)
    - **ADRs:** studies on establishment of a fee to be charged for ADRs
  - **Market Data:** closer to international prices (beginning in Apr'09)
  - **Listing:** adjustments in the charges collected from listed issuers (since Jan'09)
    - New incentives to attract fixed income bonds issued by listed companies
  - **Access Technology Package:** more flexibility for each participant

## Market environment

- Strong presence of risk aversion
- Uncertainty around expectations of recovery from the global crisis
- Lower valuation of listed companies
- Decrease of foreign participation in the Brazilian capital markets
- International financial regulation undergoing intense change at the global level

## Trends

- Gradual migration of the OTC market to exchange environment through standardization
- Strengthening of the CCP activity
- Emergence of the high frequency trading activity in our markets, providing significant liquidity with low leverage and margin requirements

## Opportunities for BM&FBOVESPA

- Improve our trading systems with better electronic connectivity, lower latency and higher capacity
- Stimulate sustainable growth of volumes and liquidity through appropriate pricings for different classes of participants, especially retail
- Deliver products and services that allow accessible risk management and cross margining

- **Year over year increase in gross revenues but the reduction in trading volumes in the 2H08 negatively impacted 4Q08 financial results**
- **Reduction of expenses due to cost savings (synergies) from the integration process**
- **Lower volumes on both segments, partially offset by a higher RPC and turnover velocity**
- **Boost in capacity and reduction of latency through investments in new technologies**
- **Continuous efforts focused on facilitating market access through DMA**
- **Technological architecture designed to meet the necessities of high frequency trading**
- **New pricing policies aimed at rebalancing our sources of revenues, reducing cross subsidies and stimulating liquidity for all classes of participants**
- **Development of new products that match with investors expectations and needs**
